Objective

To make optimum use of my skills and abilities in the software industry that offers professional growth while being flexible, positive and handles the situation. And eager to learn new technologies and hence results in my successful career.

Experience

Jan 2019 – July 2021

PLM Engineer • Kshipra Engineering Software Solutions • Bangalore

I had the responsibility of Delivering PLM (Product Lifecycle Management) solutions. I took part in designing, developing and deploying the application based on the client's requirement. Used Windshield environment for development.

August 2017 – November 2018

Internship • Intellispiders technologies LLP • Bangalore

Worked on web application development. Created content management system using wordpress.

Hobbies

Singing

Worked as movie editor and music director for web series and short film, Times of India has published about our web series.

Projects

Custom Design PDF generator / mailer

This was the custom tool where in it extracts the complete CAD Design. CAD design consists of complete Assembly (Bill of Materials). Our tool parses the complete assembly and separates each sub parts and generators the pdf of it and this in further was segregated and automatically send those pdfs to the vendors via mail. here we have used Windchill Mail packages, Pdf Box (to generate Pdf), Java.

Custom WBM tool

WBM is Windchill Bulk Migrator basically an ETL (Extraction Transfer Load). Here this tool Extracts and Migrates the Business Data. here we have customized the windchill packages using Java.
